Pharmacy Benefit Information

Prescription drug benefits

First Choice Next strives to provide you with high-quality and cost-effective drug coverage.

We use First Choice Next's Pharmacy Benefit Manager (PBM) to help manage your prescription drug benefits, including specialty medications. You will need to get your prescription medications filled from a network pharmacy to obtain coverage. Prescriptions can be filled at a retail network pharmacy, through our mail-order network pharmacy, or a network specialty pharmacy. You will need to show your member ID card when you fill or obtain your prescription medications.

The prescription drug benefits do not cover all drugs and prescriptions. Some drugs must meet certain medical necessity guidelines before we can cover them. Your provider must ask us for prior authorization before we will cover these drugs.

Formulary

The list of prescription drugs covered under this plan is called a formulary. The formulary applies only to drugs you get at retail, mail-order, and specialty pharmacies. Along with the covered drugs, the formulary also allows you to review any limitations or restrictions such as prior authorization, step therapy, quantity limits, and age limits. The formulary does not apply to drugs you get if you are in the hospital. For our latest pharmacy benefit and formulary information, please visit

<https://www.firstchoicenext.com/members/find-a-provider-or-pharmacy.aspx> or call us at 1-833-779-7229 (TTY 711), Monday through Friday, 8 a.m. to 6-p.m., excluding holidays.

The formulary is a closed formulary (i.e., products not listed are treated as nonformulary); however, drugs not on the formulary can still be requested, and our pharmacy benefits manager's coverage determination and prior authorization process may allow for nonformulary exceptions.

The formulary covers both brand (preferred and nonpreferred) and generic drugs and will determine what your out-of-pocket costs will be under our plan based on the drug tier. Please refer to your Summary of Benefits and Coverage for more information on copays and deductibles.

Covered prescription drugs and supplies

The prescription drug benefits cover many different therapeutic classes of drugs, which you can find at

<https://www.firstchoicenext.com/members/find-a-provider-or-pharmacy.aspx>

You can use the searchable drug list, to search by the first letter of your medication, by typing part of the generic (chemical) or brand (trade) names, or by selecting the therapeutic class of the medication you are looking for.

Your prescription drug benefits cover prescription insulin drugs and will include at least one formulation of each of the following types of prescription insulin drugs on the lowest tier of the drug formulary developed and maintained by your health benefit plan.

- Rapid-acting
- Short-acting
- Intermediate-acting
- Long-acting

Pharmacy Benefit Information

In addition to the covered prescription drugs and supplies listed in the formulary, we may cover:

- Compounded medications: If at least one active ingredient requires a prescription by law and is approved by the U.S. Food and Drug Administration (FDA). Compounding kits that are not FDA approved and include prescription ingredients that are readily available may not be covered. To confirm whether the specific medication or kit is covered under this plan, please call the Member Services team. Some compounded medications may be subject to prior authorization.
- We will also cover certain off-label uses of cancer drugs in accordance with state law. To qualify for off-label use, the drug must be recognized for the specific treatment for which the drug is being prescribed by one of the following compendia: (1) National Comprehensive Cancer Network (NCCN) Drugs & Biologics Compendium; (2) The Thompson Micromedex Drug Dex; (3) American Hospital Formulary Service; (4) Lexi-Drugs; or (5) any other authoritative compendia as recognized periodically by the United States Secretary of Health and Human Services.

Included in the formulary are:

- Hormone replacement therapy (HRT) for perimenopausal and postmenopausal individuals
- Hypodermic syringes or needles when medically necessary

Narrow therapeutic index (NTI) drugs

First Choice Next will cover certain narrow therapeutic index (NTI) brand medications. The medication may require prior authorization to be covered.

The brand formulations of the following NTI medications are eligible for coverage:

- Carbamazepine
- Cyclosporine
- Digoxin
- Ethosuximide
- Levothyroxine sodium tablets
- Lithium
- Phenytoin
- Procainamide
- Tacrolimus
- Theophylline
- Warfarin sodium tablets

Preventive medications

Under the Patient Protection and Affordable Care Act, commonly called the Affordable Care Act (ACA), some preventive medications may be covered at no cost (copay, coinsurance, or deductible) for First Choice Next members.

These include certain medications in the following categories:

- Bowel preparations — for members from ages 45 to 75

Pharmacy Benefit Information

- Oral fluoride supplementation — for members from ages 6 months to 5 years
- Moderate-intensity statins — for members from ages 40 to 75 years
- Folic acid 400 to 800 micrograms(mcg) — for members of childbearing age
- Aspirin 81 milligrams(mg) — to prevent or delay the onset of preeclampsia
- Tobacco cessation
 - Nicotine gum
 - Nicotine lozenge
 - Nicotine patch
 - Bupropion hall (smoking deterrent) tab ER 12hr 150 mg
 - Varenicline tartrate
- HIV pre-exposure prophylaxis (PrEP)
 - Descovy (emtricitabine/tenofovir alafenamide 200 mg-25 mg), oral tablet
 - emtricitabine/tenofovir df 200 mg- 300 mg, oral tablet
 - Apretude (cabotegravir) Intramuscular Suspension Extended Release 600 Mg/3MI
- Breast cancer primary prevention
 - Anastrozole, oral tablet 1 mg
 - Exemestane, oral tablet 25 mg
 - Letrozole, oral tablet 2.5 mg
 - Raloxifene HCL, oral tablet 60 mg
 - Tamoxifen citrate, oral tablet 10 mg and 20 mg
- Vaccines recommended by Advisory Committee on Immunization Practices (ACIP)
- Contraception —As a requirement of the Women’s Prevention Services provision of the ACA, contraceptives are covered at 100% when prescribed by a participating network provider for generic products.
 - Contraceptive categories include*:
 - Oral contraceptives (Rx and over-the-counter (OTC))
 - Injectable contraceptives (Rx)
 - Barrier methods (Rx) **
 - Intrauterine devices**, subdermal rods** and vaginal rings (Rx)
 - Transdermal patches (Rx)
 - Emergency contraception (Rx and OTC)
 - Condoms (OTC)
 - Female condoms (OTC)
 - Vaginal pH modulators (Rx)
 - Vaginal sponges (OTC)
 - Spermicides (OTC)

*Please see the Formulary for the most up-to-date list of products.

**Certain drugs or products may be covered as a nonpharmacy benefit (e.g., infused, injected, or implanted drugs, which are covered under medical benefits).

Pharmacy Benefit Information

Note: A prescription is required for all listed medications, including over-the-counter (OTC) medications.

Prescription drug benefit exclusions

What is not covered:

- Any drug products used exclusively for cosmetic purposes
- Experimental drugs, which are those that cannot be marketed lawfully without the approval of the FDA and for which such approval has not been granted at the time of their use or proposed use, or for which such approval has been withdrawn
- Prescription drugs that are not approved by the FDA
- Drugs on the FDA Drug Efficacy Study Implementation (DESI) list
- Immunization agents or vaccines not listed on the formulary. Some immunizations may be covered under the medical benefit.
- Medical supplies*
- Prescription and over-the-counter homeopathic medications
- Drugs that by law do not require a prescription (OTC) unless listed on the formulary as covered
- Vitamins and dietary supplements (except prescription prenatal vitamins, vitamins as required by the Affordable Care Act, fluoride for children, and supplements for the treatment of mitochondrial disease)
- Topical and oral fluorides for adults
- Medications for the treatment of idiopathic short stature
- Prescriptions filled at pharmacies other than network-designated pharmacies, except for emergency care or other permissible reasons. An override will be required to allow the pharmacy to process the claim.
- Prescriptions filled through an internet pharmacy that is not a verified internet pharmacy practice site certified by the National Association of Boards of Pharmacy
- Prescription medications, when the same active ingredient, or a modified version of an active ingredient that is therapeutically equivalent to a covered prescription medication, has become available over the counter. In these cases, the specific medication may not be covered, and the entire class of prescription medications may also not be covered.
- Prescription medications when co-packaged with non-prescription products
- Medications packaged for institutional use will be excluded from the pharmacy benefit coverage unless otherwise noted on the formulary.
- Drugs used for erectile dysfunction or sexual dysfunction
- Drugs used for weight loss
- Bulk Chemicals
- Repackaged products
- Drugs used for the treatment of infertility

*Certain drugs or products may be covered as a nonpharmacy benefit (e.g., infused injected or implanted drugs, which are covered under medical benefits).

For our latest pharmacy benefit and formulary information, please visit

Pharmacy Benefit Information

<https://www.firstchoicenext.com/members/find-a-provider-or-pharmacy.aspx> or call us at 1-833-779-7229 (TTY 711), Monday through Friday, 8 a.m. to 6 p.m., excluding holidays.

Formulary changes

The formulary is occasionally subject to change. If a change negatively affects a medication you are taking, we will provide written notice to you before the change takes effect. We will work with you and your prescriber to transition to another covered medication if you are on a long-term prescription.

Formulary tier explanation

Tier 1 — Generics

Tier 2 — Preferred Brand

Tier 3 — Nonpreferred Brand

Tier 4 — Specialty

Please see your specific “metal level” coverage for copay and coinsurance amounts.

Prior authorizations, step therapy, quantity limits, age limits, generic drug program, and other formulary tools

First Choice Next’s PBM may use certain tools to help ensure your safety and so that you are receiving the most appropriate medication at the lowest cost to you. These tools include prior authorization, step therapy, quantity limits, age limits, and the generic drug program. Below is more information about these tools.

Prior authorizations (PA)

There are restrictions on the coverage of certain drug products that have a narrow indication for usage, may have safety concerns, and/or are extremely expensive, requiring the prescribing provider to obtain prior authorization from us for such drugs. The formulary states whether a drug requires prior authorization.

Step therapy (ST)

Step therapy is a type of prior authorization program (usually automated) that uses a stepwise approach, requiring the use of the most therapeutically appropriate and cost-effective agents first before other medications may be covered. Members must first try one or more medications on a lower step to treat a certain medical condition before a medication on a higher step is covered for that condition. If your provider advises that the medication on a lower step is not right for your health condition and that the medication on higher step is medically necessary, your provider can submit a request for approval.

Quantity limits (QL)

To make sure the drugs you take are safe and that you are getting the right amount, we may limit how much you

Pharmacy Benefit Information

can get at one time. Your provider can ask us for approval if you need more than we cover. Quantity limits will be waived under certain circumstances during a state of emergency or disaster.

Age limits (AL)

Age limits are designed to prevent potential harm to members and promote appropriate use. The approval criteria are based on information from the FDA, medical literature, actively practicing consultant physicians and pharmacists, and appropriate external organizations.

If the prescription does not meet the FDA age guidelines, it will not be covered until prior authorization is obtained. Your provider can request an age-limit exception.

Opioid Limits (MME+)

This indicates an additional quantity limit on drugs in the opioid class, which is based on the morphine milligram equivalent (MME). MME is used to determine and monitor safe dosing and duration of therapy. If the amount of opioids prescribed is above the limit, but is needed, the prescriber can request the plan cover additional quantity. All long-acting opioids will be subject to prior authorization. Opioids greater than 90 MME/day will be subject to prior authorization. Opioids greater than a 7 days supply will be subject to prior authorization. MME limits will not apply to anyone with a diagnosis for Sickle Cell Disease, pain secondary to cancer, or in hospice or palliative care.

Generic drugs

Generic drugs have the same active ingredients and work the same as brand-name drugs. When generic drugs are available, we may not cover the brand-name drug without granting approval. If you and your provider feel that a generic drug is not right for your health condition and that the brand-name drug is medically necessary, your provider can ask for prior authorization.

New-to-market drugs

We review new drugs for safety and effectiveness before we add them to our formulary. A provider who feels a new-to-market drug is medically necessary for you before we have reviewed it can submit a request for approval.

Nonformulary drugs

While most drugs are covered, a small number of drugs are not covered because there are safe, effective, and more affordable alternatives available. All of the alternative drug products are approved by the FDA and are widely used and accepted in the medical community to treat the same conditions as the medications that are not covered. If you and your provider feel that a formulary drug is not right for your health condition and that the nonformulary drug is medically necessary, your provider can ask for an exception request.

Pharmacy Benefit Information

Noncovered drugs with over-the-counter alternatives

First Choice Next does not cover select prescription medications that you can buy without a prescription, or “over-the-counter.” These drugs are commonly referred to as OTC medications.

In addition, when OTC versions of a medication are available and can provide the same therapeutic benefits, First Choice Next may no longer cover any of the prescription medications in the entire class. For example, nonsedating antihistamines are a class of drugs that give relief for allergy symptoms. Because many nonsedating antihistamines are available over-the-counter, First Choice Next does not cover them.

Please refer to the pharmacy formulary for a list of covered medications. As always, we encourage you to speak with your provider about which medications may be right for you.

Prior authorization and exception requests

For formulary drugs that have restrictions such as prior authorization (PA), step therapy (ST), quantity limitations (QL), and age limitations (AL), a prior authorization request may be submitted for decisions. First Choice Next’s PBM will review the requests and will determine if a request meets the clinical drug criteria requirements.

For non-formulary drugs, non-formulary exception requests can be made. Non-formulary exception requests are reviewed on a case-by-case basis. Your provider will be asked to provide medical reasons and any other important information about why you need an exception. First Choice Next’s PBM will review the requests and will determine if a request is consistent with our medical necessity guidelines.

We will cover nonformulary prescription drugs if the outpatient drug is prescribed by a network provider to treat a covered person for a covered chronic, disabling, or life-threatening illness if the drug:

- Has been approved by the FDA for at least one indication; and
- Is recognized for treatment of the indication for which the drug is prescribed in:
 - A prescription drug reference compendium approved by the Insurance Commissioner for purposes of this section; or
 - Substantially accepted peer-reviewed medical literature;

and

- There are no formulary drugs that can be taken for the same condition. If there are formulary alternatives to treat the same condition, then documentation must be provided that the member has had a treatment failure with, or is unable to tolerate, two or more formulary alternative medications.
- Prescription drug samples, coupons, or other incentive programs will not be considered a trial and failure of a prescribed drug in place of trying the formulary-preferred or nonrestricted access prescription drug.

First Choice Next’s PBM will review the request. If the requested drug is approved, it will be covered according to our medical necessity guidelines. If the request is not approved, then you, your authorized representative, or your provider can appeal the decision.

If the request for a nonformulary drug is approved, the medication will be covered on the highest tier.

You, your authorized representative, or your provider can visit our website to review the formulary and find covered drugs. You can access a searchable and a printable formulary on our website at

<https://www.firstchoicenext.com/members/find-a-provider-or-pharmacy.aspx>

You, your authorized representative*, or your provider can request for both formulary drug prior authorizations

Pharmacy Benefit Information

(PA, ST, QL, and AL) and non-formulary exceptions in the following ways:

- Electronically: directly to First Choice Next's PBM, through Electronic Prior Authorization (ePA) in your Electronic Health Record (EHR) tool software, or you can submit through either of the following online portals:
 - CoverMyMeds <https://www.covermymeds.com/main/>
 - Surescripts <https://providerportal.surescripts.net/ProviderPortal/>
- By fax: 1-844-470-2508 for standard (nonurgent) requests 1-844-470-2511 for expedited (fast)* requests
- By mail:
200 Stevens Drive
Philadelphia, PA 19113 CC: 236
- By phone: 1-833-779-7229

If you or your authorized representative submit the request for a prior authorization or non-formulary exception your provider must provide follow-up clinical documentation.

Once all necessary and relevant information to make a decision is received, First Choice Next's PBM will review the request. If the request is approved, they will provide an approval response to your provider with a duration of approval. If the request is denied, they will provide a denial response to you and your provider.

Prior authorization and non-formulary exception requests will be completed and notifications sent within the following time frames:

- Standard (nonurgent): no later than **72 hours** after we receive the request and any additional required information
- Expedited (fast)*: no later than **24 hours** after we receive the request and any additional required information

Expedited (fast) requests can be made based on exigent circumstances. Exigent circumstances exist when you are suffering from a health condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a non-formulary drug. You can indicate your exigent circumstance on the form and request an expedited review.

If the prior authorization request is denied and you feel we have denied the request incorrectly, you may challenge the decision through First Choice Next's internal dispute process.

You can ask for an appeal yourself. You may also ask a friend, a family member, your provider, or a lawyer to help you. You can call First Choice Next at 1-833-983-7272 (TTY 711), Monday through Friday, 8 a.m. to 6 p.m., excluding holidays if you need help with your **appeal** request.

It is easy to ask us for an appeal by using one of the options below:

- Mail: Fill out and sign the Appeal Request Form in the notice you receive about our decision. Mail it to the address listed on the form. We must receive your form no later than 180 days after the date this notice
- Fax: Fill out, sign, and fax the Appeal Request Form in the notice you receive about our decision. You will find the fax number listed on the form.
- By phone: Call 1-833-983-7272 (TTY 711), Monday through Friday, 8 a.m. to 6 p.m., excluding holidays and ask for an appeal.

For more information on appeals, please see the section on Appeals of the Member Handbook.

Pharmacy Benefit Information

Non-formulary exception request denial rights

For non-formulary exception request denials, you also have the right to pursue either a standard or, if warranted and appropriate, an expedited external review by an impartial, third-party reviewer known as an Independent Review Organization (IRO).

You may exercise your right to external review with an Independent Review Organization (IRO) upon initial denial or following a decision to uphold the initial denial pursuant to the internal appeal process of First Choice Next. If a decision is made to uphold the initial denial, your denial notice will explain your right to external review and provide instructions on how to make this request. An IRO review may be requested in writing by the member, member's representative, or member's prescribing provider by contacting First Choice Next via mail, or fax at the following address:

- Mail: Member Appeals
First Choice Next
P.O. Box 7100 London, KY 40742-7101
- Fax: 1-833-722-9329

An expedited external review may be warranted if based on exigent circumstances, your request for a standard external review is accepted, it is decided within 72 hours of receipt of your request. If your request for an expedited external review is accepted, it is decided within 24 hours of receipt of your request.

We must follow the IRO's decision. If the IRO reverses our decision on a standard external review, we will provide coverage for the non-formulary item for the duration of the prescription. If the IRO reverses our decision on an expedited external review, we will provide coverage for the non-formulary item for duration of the exigency.

Filling prescriptions at the pharmacy

- Retail pharmacy — You can fill up to a 90-day supply.
- Mail-order pharmacy — You can fill up to a 90-day supply.
- Specialty pharmacy — You can fill up to a 30-day supply

Retail pharmacy

You can fill your prescriptions at any of our contracted pharmacies nationally. Certain medications that are considered maintenance medications can be filled for up to a 90-day supply.

Mail-order pharmacy

We use AllianceRx Walgreens as our mail-order pharmacy. You must register and have your prescriptions sent to AllianceRx Walgreens Pharmacy. Most maintenance medications can be filled for up to a 90-day supply.

- Register at: [WalgreensMailService.com](https://www.walgreensmailservice.com)
- Provide your information to Walgreens through phone or mail.
 - By phone:
Walgreens Customer Care Center

Pharmacy Benefit Information

Phone: 1-800-345-1985 (TTY: 1-800-925-0178)

Hours of operation: 24 hours a day, seven days a week

O By mail:

Complete the Mail Service Registration Form (PDF) and mail it along with your original prescription to:

Walgreens Mail Service

P.O. Box 29061

Phoenix, AZ 85038-9061

Note: Only prescribers may fax prescriptions to **1-800-332-9581**

Specialty drug program

We have designated specialty pharmacies that specialize in providing medications used to treat certain conditions and are staffed with clinicians to provide support services for members. Some medications must be obtained at a specialty pharmacy. Medications may be added to this program from time to time. Designated specialty pharmacies can dispense up to a 30-day supply of medication at one time, and the supply is delivered via mail to either the member's home or doctor's office in certain cases. This is not part of the mail-order pharmacy benefit. Extended-day supplies and copayment savings do not apply to these designated specialty drugs.

COVID-19

COVID-19 vaccines: FDA-approved COVID-19 vaccines are covered at \$0 copay according to FDA-approved indications and age.

For details on the latest formulary information on COVID-19 vaccines, please visit

<https://www.firstchoicenext.com/members/find-a-provider-or-pharmacy.aspx> or call us at 1-833-779-7229 (TTY 711), Monday through Friday, 8 a.m. to 6 p.m., excluding holidays.

School supplies

First Choice Next allows school supplies for the following medications:

- Insulin
- Insulin needles
- Lancets
- Test strips
- One glucometer for school
- Alcohol swabs
- Glucagon
- Inhalers
- Diastat
- EpiPens
- Spacers
